Welcome to Myanmar

The Legendary "Golden Land" - this is still the Myanmar of today. Certainly one of the most exotic countries in the world - a land of astounding beauty and charm that moved kipling to pen these apt words: "quite unlike any land you will ever know". Paradise... Myanmar is a paradise to discover, a destination for discerning travellers to explore and experience the mystical charms of the East in all its diversity - rich archaeological sites, glittering pagodas, a wealth of cultures, colourful festivals and arts. Myanmar is also blessed with an awe-inspiring range of natural sights - idyllic landscape, lush fertile plains, vast virgin jungles, majestic snowcapped mountains, pristine beaches washed by crystal clear waters, fragrant pine trees and sunflowers bathed in abundant sunshine. But most of all, perfectly complemented by a most gracious and hospitable people.

Kyaiktiyo

This mystical pagoda stands on a gold gilded boulder, precariously perched on the edge of the hill over 1100 km above sea-level.

Kyaikto, the town at the foot of the hill, is about 160 km from Yangon. It is a 11 km uphill climb for the hikers from Kinpun base camp. There is also a steep winding road for 4-wheel drive cars from the base to the nearest point of the pagoda. There are many legends about the pagoda and the 'nats' or 'spirits'. Kyaikhto Hotel and Golden Rock Hotel have modern facilities for tourists.

World Heritage Site: Sri Ksetra Pyu Ancient City

© Copyright Design Printing Services (D.P.S) 2015.

Criteria (ii),(iii), and (iv) of Pyu Ancient Cities: Sri Ksetra

The three Pyu Ancient Cities of Halin, Beikthano and Sri Ksetra (Sriksetra.com) developed and flourished over a period of more than 1000 years between 200 BCE and 900 CE in the dry zone of the middle Irrawaddy River basin within the territory of what is today modern Myanmar. The highly intact moated and walled urban settlements, set within a vast irrigated landscape, contain the remains of monumental brick Buddhist stupas, other ritual structures, palace citadels, burial grounds, water management features and early industrial production sites.

The Pyu Ancient Cities provide exceptional testimony of the introduction Buddhism into South East Asia 2000 years ago and the attendant economic, socio-political and cultural transformations which resulted in the rise of the first, largest and longest-lived urbanized settlements of the region up until the 9th Century.
